STATEMENTS

Statement of Islamic Emirate of Afghanistan concerning the unilateral approach of the United Nations to losses of the civilians

13 June 2011

The political section of United Nations Organization UNAMA, in last statement concerning losses among the Afghan civilians, has informed: "the losses of the Afghan civilians during May 2011, are unprecedented in comparison with last four years". Within a month, 368 civilians have been killed and 593 are wounded, and they inform, that 82 percent or 301 persons are killed by Mujahideen, and 12 percent or 45 persons have been killed by invaders and puppets, and only three percent have been killed as a result of air bombing of invaders.

But alas! The UN, despite of applications about neutrality, continues to take an one-sided position not only in questions of distribution of the information on losses among the peace population but as have shown last 10 years in Afghanistan, and questions of political, cultural, economic, moral and military, and continues this policy.

UNAMA has ignored the analysis of the current situation in Afghanistan by American generals and leaders, especially, the application of American commander Petraeus about victims of bloody bombardment of invaders in Ghaziabad, Kunar, which martyred 70 person, mainly innocent children which has told: " Afghans have killed and burned own children purposely to present them as victims of the American bombardment! "

Also UNAMA has forgotten aviablow of invaders on May, 25 in Do Ab where the number of victims of civil persons has reached 300 that participants of Parliament have confirmed even, and the majority killed and wounded innocent people, women and children, and also big number of civil persons is killed and crippled by invaders in various parts of the country during May.

We pay attention to victims among civilians which are caused by actions of invaders in various parts of Afghanistan, which based on the certificate with information on a place and date of event:

1 May, American soldiers killed two children and wounded three women in Baraki Barak, Logar.

2 May, Invaders killed the tribal leader and captured two others during attack on village Sang-e-Atish's Umarzo, Baghis

6 May, Invaders killed Haji Gul Agha, famous spiritual leader in Rabar-r-Sangi district, Herat.

14 May, During night attack on village in Hisarak, Nangarhar, invaders have killed the boy while he slept

16 May, Invaders killed the child and have wounded three others in Ghazyabad, Kunar.

At the same night, invaders bombed and destroyed houses in village Abd al-Rahim, Andar, Ghazni and killed three civilians and wounded others five

18 May, Invaders killed five civilians and captured others fourteen during night attack on village Sayedano, Tirin Kot, Uruzgan.

Also five civilians, including women, were killed by invaders in village which is on distance of three kilometers from the center of Takhar, - Taluqan. During the protest of civilians against this crime, 135 civilians were killed and wounded by soldiers of democracy.

19 May, Three civilians were killed in village Mirodi, Sangin, Helmand.

Also soldiers fired at a wedding escort in Sangin and killed the famous religious scientist, Shaykh Mawlawi Noor Agha, and wounded others six.

20 May, Three civilians were killed and three others were captured during attack on area Daraboom's Laki Surkh, Badghis.

In same day soldiers have shot juvenile daughter of Haji Deen Aka in Dishu, Helmand.

23-25 May, 300 civilians were killed and wounded by airstrikes in Do Ab, Nuristan.

29 May, Invaders bombed two houses in village Salam Bazaar in Sarwan Kala

Also invaders killed 14 children and women and wounded several others civilians in Helmand.

Also invaders have attacked village in Chak district, Wardak, and burned seven cars, three houses and religious school and inflicted other material losses.

And despite of such facts, UN say, number of the civil persons, killed and wounded by invaders, is 12 percent only, and the number of victims of ISAF airstrikes is equal only 3 percent?!

Islamic Emirate of Afghanistan repeatedly asked UN and the organization of protection of human rights, to undertake serious steps for the searching of victims among civilians and to open originators of these crimes, and to follow such practice... But alas! Till now it is not noticed

Thus, there is an one-sided position both double standards, and messages and statements of the United Nations for victims among civilians, are a unit of the propaganda campaign begun by intelligence and the American Embassy in Kabul to deceive the world and the Afghani people. But they should understand, that the Afghani people know and understand, that charges of invaders to Mujahideen concerning victims among civilians, have no basis; because people know, that these of a victim - consequences of various crimes of troops ISAF!! And observing it by own eyes, to be mistaken not probably.

In the end it is necessary to notice, we have specified on these victim among civilians within May. United Nations should publish the report based on this document and to prove, that Mujahideen are involved in 82 percent of victims among civilians if they are sincere in the claims, or they publish that, because it is paid.

Remarks of the Spokesman of the Islamic Emirate of Afghanistan about executions of two Mujahideen

20 June 2011

According to the message of mass-media, judicial officials of the puppet Kabul government have informed, that two Mujahideen from Nangarhar which were in government hands, were martyred today in prison of Kabul. From Allah we come and to Him we return. Islamic Emirate of Afghanistan insistently condemns this action and considers necessary to revenge for blood of these oppressed martyrs. The puppet government has lost big number of soldiers during an attack in Jalalabad, and the governor of puppet administration of Nangarhar, Gul Agha Sherzay recognised it and has confirmed that soldiers and policemen were killed. But the opponent has published a considerable quantity of false news to complicate minds of people and to make impression, that Mujahideen brutally attacked the innocent.

Islamic Emirate of Afghanistan divides a grief of a family of these Mujahideen and brings the condolences and is proud of them. It is necessary to tell, that these Mujahideen have left the own houses to receive shahada and they have reached it.

Mujahideen of Islamic Emirate will do the utmost to call to account all puppet officials who were linked with this execution and those who has been noticed in similar earlier. These Mujahideen-martyrs have hundreds the colleagues ready to revenge, God willing.

Finally, we call upon Allah for our forgive and to grant patience and solace to their families.

Statement of Islamic Emirate regarding Obama's announcement of the withdrawal of a limited number of US troops from Afghanistan

23 June 2011

American President Barack Obama, who had given hope to his nation of withdrawing troops from the exhaustive Afghan war one and half year earlier, finally announced that 10000 soldiers will be withdrawn by the end of this year.

Barack Obama made his announcement of withdrawing 10000 troops in the whole year at a time when the American nation's hatred for this war has reached a tipping point. A recent poll suggested that most Americans want to bring the occupation of Afghanistan to an end as quickly as possible and want all American soldiers to be removed from this futile war.

Islamic Emirate of Afghanistan considers this announcement which currently withdraws 10000 soldiers this year, only as a symbolic step which will never satisfy the war weary international community or the American people because it comes as America simultaneously wants to build permanent bases in Afghanistan under the title of 'Strategic Agreement' by forcing its stooge regime to sign and approve it while it is at the same time busying its invading forces in killing and persecuting the Afghan people in all corners of Afghanistan.

Obama and his war mongers want to deceive their nation and with this announcement, while in reality, they have no respect for their nation's demands or wanting to bring this war and occupation to an end nor do they want to fulfill their promise. Obama's statement about training Afghan Police and Army holds no significance because firstly, the trainers themselves have failed in passing this exam and secondly, the Afghans see them as thieves and enemies of their nation and religion. On top of this, the so called Army and Police, most of whom are drug addicts, forced out of their homes, the filth and bad people of society have been gathered for vice, given the mentality to spread vice and assigned for corruption will not reach Afghans any benefit nor will they help the Pentagon or CIA reach their ambitions.

The American nation must realize that their politicians and Army Generals are prolonging their game with them which was started a couple of years earlier. They are repeatedly giving false hopes to its nation about ending this war and claiming baselessly about victory and in this way want to extend this war as long as possible.

It must be clarified that the assertion of American leaders about making headway in Afghanistan and Obama's proclamation of them being in a stronger position are nothing more than baseless claims and propaganda. They have not gained progress in the battle field nor can they bring forth any proofs of this progress. The increase in troop levels since last year has only increased the loss in life and equipment on their side. And in this way, the increased blind bombings of villages, genocide, persecution of people and the destruction of people's homes and farms to protect themselves cannot be called victory or progress by any sound mind.

The American people, who have now understood many of the realities about the Afghan war, must take serious steps to stop this pointless bloodshed. The American taxpayers must realize that, like the previous ten years, their money is still being wasted on this pointless and meaningless war or is still going to the pockets of the officials in the corrupt Kabul regime. If they do not react now, they will definitely be forced to so in the future in order to release themselves from this crisis.

Islamic Emirate of Afghanistan once again wants to make it clear that the solution for the Afghan crisis lies in the full withdrawal of all foreign troops immediately and until this does not happen, our armed struggle will increase from day to day. In Afghanistan, region, American and the rest of the world, hatred will only increase against all invading troops and will end up in the disgraceful defeat of the invading troops, God willing.

Remarks of Zabihullah Mujahid regarding the release of 2 French prisoners

30 June 2011

In the name of Allah, the most Gracious, the most Merciful

Those two French nationals, Stéphane Taponier and Hervé Ghesquière that were captured by Mujahideen of Islamic Emirate 18 month earlier on 30/12/2009 in Kapisa province's Tagab district and regarding whose release, conditions were put forward by Islamic Emirate to the government of France many times but the opposition was bent on freeing them through use of force for which they carried out operations several times in the area however the enemy came out empty handed and was forced to retreat with great losses every time due to the organization of Islamic Emirate and the military planning done by the regions Mujahideen. This at the end compelled France to accept the demands set out by Islamic Emirate and release a number of high ranking Mujahideen officials in exchange. With the help of Almighty Allah, this transaction was completed yesterday when the enemy released high ranking Mujahideen prisoners for the 2 French nationals. Islamic Emirate considers this release of Mujahideen as one its highest accomplishments and in this regard congratulates the whole Mujahid nation especially the Mujahideen of Kapisa province and the family's of those whose loved ones were freed. May Allah (SWT) also release the rest of our Mujahideen brothers that are imprisoned at the hands of our enemy.

COMMENTS

Learn a lesson from the Takhar event!!

01 June 2011

On 7th Jawza (May. 28), the heroes of Islamic Emirate were not only able to disrupt the meeting being held in Takhar provincial governor house between high-ranking foreign commanders, officers and their domestic lackeys but rather, they took out the head leaders of this meeting despite all the security measures taken by the enemy, in an unforgettable lesson. According to reports, in this strike which shook the world, many foreign officers, soldiers and their puppets were killed as well as the German General Markus Kneip, the ISAF force commander in the north, critically wounded. As for the stooge provincial governor of Takhar province, although he may be breathing, it is ill imagined that his body will cooperate with him or that the occupying forces will ever use him as a tool again. The fate of the general commander of zone (303) of northern regions, General Dawood and the chief police of Takhar province, Shah Jahan Noori is also well known as they have now left this world and have received a proper penalty for their actions!!

This strike on Takhar provincial governor house by heroes of Islamic Emirate was a tooth breaking response to this foreign and domestic band who were readying their forces to carry out a large scale operation in the north against its Mujahid nation. In the name of wanting to rid the north of Mujahideen presence, this group had plans of bringing death, destruction, sorrow, fear and wanted to raid the homes of its proud people then take hundreds of youth, scholars, students, tribal elders and Mujahideen to Bagram prison for the crime of having the zeal of waging Jihad against the occupation.

But fortunately, Mujahideen struck the first blow and those faces who used to beat their chests and boast to the occupiers about securing the north in exchange for millions of dollars, were dragged forth and put on trial in front of the north's oppressed Muslims by the courageous soldiers of Allah, who also managed to pulled down the idols built of treachery, betrayal and injustice by the foreign invaders.

The death and injury caused to these hired commanders in Takhar shook the foundations of Kabul regime's security apparatus and also forced Karzai to cut short his trip to Turkmenistan. NATO also showed great sorrow about the death of General Dawood and called it a great loss in their statement. Islamic Emirate of Afghanistan, while it calls these recent events in Takhar a strong groundwork of Jihad against the eternal enemies of Islam, the occupiers and their agents, it is also a reaction of the people of Takhar towards the foreigners' injustice and brutalities which recently forced the people to take to the streets but the barbaric invaders along with their hirelings headed by General Dawood opened fire on them, martyring and wounding around 130.

We call on all those puppet officials and commanders, who have put chains of slavery of the foreign armies around their necks for a few measly dollars and positions, to recognize that you still an opportunity to find out about your obligation towards your country and religion, leaving the ranks of foreigners and to give Mujahideen, the soldiers of Islam a chance of bringing the crusading idol under the leadership of America to its knees and giving it a historical lesson in our proud and disbelief razing land. If you still choose to accept the slavery of invaders instead of siding with the Mujahideen, the recent Takhar event is a great lesson to learn from!!

Kazakhstan's Senate and the right verdict!!

16 June 2011

According to latest reports, the senate of Kazakhstan blocked the bill sent for approval last month by the country's parliament which, in agreement with America, would have sent a number of its country's troops to Afghanistan. The senate took this step against the bill after a number of Kazakhstan's regional media outlets raised their voices through petitions signed by 112 thousand household members and maimed affectes from the Soviet Union war, who disapproved of their troops being sent and called this act a betrayal against its nation, people and neighboring country. This is what compelled Kazakhstan's Senate to block the endorsement of this bill and in this way responded in the positive to its peoples demands and the majority agreed that no soldier will be allowed to operation in war theaters outside its borders.

It should be reminded that Kazakhstan's leadership had reached an agreement with America last May the 17th to send a couple of hundred of its soldiers to Afghanistan, to which a reaction was shown by the head of Islamic Emirate of Afghanistan through a published statement which pointed out to the government of Kazakhstan the defects in this agreement such as: sending troops to its neighboring country for the advancement of America's interests, taking part in the American occupation of our country and historically, to fan the flames of enmity between two neighboring countries which plays right into the hands of American strategy of creating rifts between two brotherly and Muslim countries and in the long term, an entrapment in hardships.

We welcome this move by the senate of Kazakhstan and the thousands of its countrymen who gave preference to the everlasting fellowship between the people of Afghanistan and Kazakhstan and their neighborly brotherhood over the short term happiness of America and after taking into account the volatility of this region, it halted and rejected America's satanic plan for a couple of million dollar aid and instead chose the friendship of the people of Afghanistan. It is hoped that this country and its people will also take a stand against those places in their country which America exploits and uses against the people of Afghanistan. Like how it used its constitution to block any Kazakh soldiers from entering Afghanistan, it should also stand against the American bases in its country and bring them to an end.

By Democracy And Westernization

By Abdul Wahhab Kabuli

In the Name of Allah, the Most Compassionate, the Most Merciful

For 90 years the West has been trying to Westernize Afghanistan and plant the vile tree of democracy in it by way of its henchmen, but the land of Afghanistan refuses to accept this alien plant.

The first who tried to import Western ideas and spread them in this country was King Amanullah Khan who ascended the throne of power in the wake of the recovery by the Afghan people of their freedom from the English as a result of the great Jihad in the cause of Allah Almighty in 1919 CE.

After he assumed the reins of power and the situation stabilized, he became fascinated by the capitals of Europe. He visited them in a strange visit, perhaps the strangest visit undertaken by a king or ruler in recent centuries, which lasted for seven months from December 1927 CE until July 1928 CE and in which he visited the most important European countries like Italy, France, Belgium, Switzerland, Germany, Britain, Poland and the Communist Soviet Union. After an absence of seven months, he returned to Afghanistan inspired by what he saw in the West of material progress and moral liberation. Western democracy hardened his mindset and he forgot his affiliation with the Islamic religion and the Afghan people who reject abandoning their Religion and its Islamic values in exchange for any price, no matter how lucrative. After arriving back in Afghanistan, he wanted to turn this country within a short time into a piece of atheist Europe which followed secularism and democracy after rebelling against burning Christianity which assailed the life of the people with the tyranny of the church and the irrational and cruel clerical regime.

The king resorted to issuing laws and Western statutes upon Islam and the traditions of its Mujahid people. Among them were the following, as recalled by Mir Ghallam Muhammad Ghobar, the Afghan historian and contemporary of the king, in his book *Afghanistan dramseer of History*. Sent a group of Afghan girls, traveling without a *Mahram* or proctor, to study in Ataturk's Turkey. Introduced a group of German teachers to instruct girls in Kabul. That group was the first nucleus of the women's liberation movement in Afghanistan, along the Western model. Issued orders for the coeducation of boys and girls for the first time in the history of Afghanistan. Issued instructions forbidding multiple wives for official employees of the state. Issued laws abolishing underage marriage and setting the age for legal marriage from 18 to 24 years. He was not satisfied with issuing laws which were alien to the spirit of Islam and the rulings of Shari'ah. Indeed he was driven by his Westernizing excess to reshape the appearance of the people in the Western mold by using compulsive power. He set up signs on some of the streets of Kabul on which it was written: *Women wearing the burka are forbidden to pass*.

Not only this, he forced the residents of Kabul city to wear pants and a French cap, and employed the police in the markets to oversee implementation of this law and fined those who violated it. In order to save themselves from the oppression of the police and paying a fine, people would place any cap they could get on their heads, regardless whether it was civilian, military or vocational.

What was laughable was that the kuffar *mud* who considered the turban to be part of their religious clothing were also forced to place a cap above their turban, so that the city looked like a humorous caricature in which French caps and clothing marred dignified and innocent Afghan appearances. Moreover, the king also issued a statute forbidding the greeting (Salaam) in the Islamic manner and forced people to doff their caps in the French manner if they wanted to greet someone from afar. This and similar strange behavior was for the sake of imposing secularism and Westernization under the banner of engaging in democracy, incited the people against this king who was smitten with Western lifestyle. The people charged him with unbelief, rebelled against him and expelled him from the country, nullified all of his Westernizing projects and forced him to flee to exile in al-Malouk (Italy) until he died there unmourned.

After that the West replayed its Westernization card again, represented by the reign of Zahir Shah which lasted forty years and in which he took Westernization measures like engaging the ministry of information to introduce Western culture to the Afghan people, summoning Western educational experts to craft educational programs suffused with the Western spirit and permitting Western countries and the Soviet Union to establish educational programs there and establishing leftist or secular parties which were working for Western democracy and distancing people and groups from serious work for Islam and hindering the role of Islam in shaping society. The doors of the country were opened in front of imported foreign ideas and views which led to an ideological confusion within the conservative Afghan society. All of these Westernization measures aroused the anger of the Afghan people against the king and his regime. The result of this was that the *Ulema* protests in anger and rejection against the Westernizing policies of the king. From another aspect, the university and institute students and teachers came out to organize work for Islam in a contemporary, organized manner. In these circumstances, the contemporary Islamic movement in Afghanistan was formed.

When the Communists saw the aggravating effects of the movement among the new generation it launched a military coup which resulted in the occupation of the Afghanistan by the Russians. European ideas began to dominate the country this time under the guise of Communism represented by the Afghan Democratic People's Party which wanted to detach the Afghans from their Islamic religion and history, just as the Communists have done (before) in the countries of Central Asia. The Afghans, however, rejected the Communist thought imported from Europe and announced a great Jihad against it which last two decades during the course of which they offered two million martyrs, but they did not surrender to adopted European thought.

When the Afghan established Islamic rule represented by the Islamic Emirate of Afghanistan, the West did not hesitate but began to plot by every method and means to eradicate this young Islamic government. The West created an alliance against it, which included all the infidel powers in the East and the West, and attacked this Muslim country again to establish democracy in the country. They destroyed the country, killed tens of thousands and spent billions of dollars to establish democracy and ideological system in Afghanistan. But all their efforts met with failure, their money was squandered and democracy was not established in the country. Here are the Afghan people fighting Western democracy and its heretical tenets for ten years. They are not content to accept the contamination of their faithful society with the pollution of infidel democracy and dissolute liberalism.

Why do the Afghans reject Secularism and Democracy?

It is known that historically the Afghans are a people who cling to Islam and Islam is what organizes all aspects of this people's life, whether in the regime and politics, or in the economy and society and moral values. This is because Islam is a religion which absorbs all aspects of human life and does not need to complete itself with some other philosophies or prescriptions such as democracy, communism or other patchwork regulations.

As for democracy, it is a religion drawn up by godless Europe to save itself from the tyranny and injustice of the church and its first structure was erected on the basis of hostility to religion and rule in the name of religion.

Among the most important characteristics of democracy are the following:

1. Forbid any divine faith from organizing the affairs of mankind, because religion, in the view of democracy, is a set of restrictions which shackle human freedom. Because religion inspires its adherents with a sense of privilege and democracy rejects privilege on the basis of religion, calling instead for equality, and equality cannot be achieved unless people renounce their religion.

2. Democracy rejects being guided by divine revelation and in matters of forbidding, permitting and taking guidance it defers to human whims represented by "the majority". The truth therefore is what is agreed upon by the majority and falsehood is what is rejected by the majority. The majority sees democracy as its god and its servant whose decree may not be violated.

3. Democracy looks to humankind with the human eye stripped of religion and creed. In democracy, there is no difference between the Muslim and the infidel, or the pious and dissolute one, because they are all human and all humans are equal in the scales of democracy. Therefore the opinion of the dissolute infidel is equivalent to that of the pious Muslim.

4. Democracy enjoins political diversity and freedom of parties on whatever basis except the basis of Islam, which says:

"And fight them until there is no more tumult or oppression, and there prevail justice and faith in Allah altogether and everywhere". Anfal 39.

Likewise, it says *"If anyone desires a religion other than Islam, never will it be accepted of him, and in the Hereafter he will be of those who have lost all spiritual good)".* Al-i-Imran 85.

But democracy says that all religions are equal, and mankind can choose to accept some or reject them all. In all these situations he is in the right and no one else is responsible for it.

5. Democracy says that mankind is free to adopt any kind of rule or regime and draft any laws or constitutions and it is not Allah Almighty – Allah forbid! – who compels mankind to follow a certain law or constitution. Rather it is mankind who chooses what they want.

6. If these ideas are the spirit of democracy and its creed, then there is no doubt that these views are *kufur* and contradictory to Islam. It is not possible for any Afghan or other Muslim to accept them or be silent about them in his country. The people must rebel against it and destroy it, because it infringes upon the power of Allah Almighty on earth.

The Muslim Afghan people therefore have waged war against democracy and its system of ideas, whether in the form of godless communism or in its liberal secular mold. Then, in addition to the corruption of its ideas and concepts, democracy and its adherents in Afghanistan and the Muslim world have committed vicious crimes against the Muslims. The communists and their democratic party in Afghanistan killed almost 1.5 million Muslims for the sake of implementing their ideas and democratic principles. They turned the country to destruction and ruin, and forced almost five million people from their homes, in addition to handicapping millions of others. Our wounds from the arrows of eastern democracy had not yet healed when Western democracy under the banner of America and its allies invaded and for the past ten years has poured down upon our people millions of tons of fire, steel and poison gases. Its excuse for doing this is to "establish freedom and democracy" in the country. Almost 100,000 children of this country have fallen victim to this democracy over the past ten years. So for almost a century the Muslim Afghan people have been suffering from democracy and its wicked people in a way they have not suffered since the time of Genghis Khan until the 20th Century. The destruction created by communist and liberal democracy has no precedent in the land of Afghanistan.

The West understands well that the ideas of the Afghan people will not be contaminated by the pollution of Western ideas through any centralized effort, for they will still love Jihad, freedom, and defense of religion and country. They will offer all that they own for this cause. Therefore, in its current military campaign in Afghanistan, the West has accompanied its soldiers with thousands of educational, cultural, social and economic establishments to Westernize the conservative Afghan people. The Westernizing and Christianizing establishments focus their efforts on four axes: education, media, changing the structure of the social fabric of the Afghan people and Christianizing efforts among some minority sects and the remnants of communism in Afghanistan. In the field of education, the West has changed the educational curriculum three times in the past ten years. They have removed from it all materials and words which are connected to Jihad, defense and fervor for the Religion, and what would infuse the student with a sense that the Muslims are a community (Ummah) and that the infidels are another community. In place of these there have been substituted Western philosophical and literary definitions, such as democracy, humanism and religious tolerance, the necessity of peaceful coexistence with the kuffar and rejection of any kind of violence. Likewise they put in place definitions of the theory of human rights, the rights of women and individual freedom according to the Western concept of these definitions. Moreover, these definitions brought political and cultural subordination and dependency on the West in the name of globalism and common needs of humanity.

In the cultural field, Western forces and establishments have set up 180 radio stations and 40 television stations, in addition to 750 monthly and daily publications. The occupiers have employed in these cultural and media establishments which they have set up the elite of thinkers, media, writers and experts in ideological warfare, and has made available to them all means of communication and influence. In the realm of changing the structure of the social fabric, Western military forces and their civilian establishments have created hundreds of administrations to change Islamic tribal society into what is called a civil society through youth and women associations, councils, shuras, technical unions and political blocs in the cities, villages and countryside. Western establishments have begun to make available to these new organizations cultural materials and are beginning to make them aware and Westernize them through conferences, seminars, classes, radio programmes and the distribution of tapes and radio sets among the people. In the field of Christianization, Western missionary groups have spent huge sums and have bought many beggars and naïve people in the cities to form missionary cells from them. In addition they focus their efforts of educators among the minorities, like the Agakhaniyah and those who think like them among Afghanistan minorities. They educate new converts, the missionaries have established a strong radio station which transmits in all Afghan languages, and provides them with Christian instruction and missionary methods. There is strong cooperation among the missionary and Western organizations in Afghanistan because each of them aids the work of the others. Nonetheless, despite the zeal and size of this Westernizing battle, the variety of its methods, its multiple battlefronts, its results and impact upon members of the religious Afghan people are not great. This is because the people are faithful by disposition and they hate Western values, which have lost their shine and their credibility has been broken in the land of reality because of its coexistence with barbaric injustice, bombing, killing, dispossession and the great slaughters conducted by these Western forces in the land of Afghanistan. In the face of all this, the people are increasingly receptive to the media of the Mujahideen, and their adherence to the dictates of religion and its pure morality because secularism, Westernization, democracy and Western establishments offer them nothing but prostitution,

depravity and a departure from noble human nature. All of this makes the people hate the West because of the folly they send to us in the name of culture, the folly they send to the land of Jihad and Martyrs in Afghanistan. Despite all of this, the West has not despaired of Westernizing the Afghans and polluting them with the contamination of secularism and democracy, but this time through what is called "democratic Islam" which employs groups which have grown tired of Jihad and patience in the face of tribulations and have begun to be carried away in the currents of Western ideas paid for with euros and dollars, despite what they are reckoned to have done in the past for the Jihad and the Islamic movement. We will talk about them in a future article, Allah Almighty willing.

The Secularists Between Enmity To The Mujahideen And Loyalty To The Western Americans

By Abu Muthanna Badir

In the Name of Allah, the Most Compassionate, the Most Merciful

It is not hidden from those of sound intellect that the Islamic of Afghanistan suffers from various maladies and destructive diseases. Its afflictions, crises and catastrophes of all kinds have followed each other in succession. Spiteful infidel plots have befallen the country for more than three decades. If from time to time Allah Exalted and Sublime ordains that some of its pure sons show courage and curb the defiance of its enemies, then there are now among bygone peoples, with no name, picture or culture remaining to them.

Some rapacious empires have many times wanted to harass this Muslim land to destroy it, plunder its resources and minerals, but they were overthrown, frustrated, exhausted, penitent and empty-handed without having achieved any benefit other than losing wealth and means.

But today there have gathered against Afghanistan a large number of enemies, of fierce cunning, amazing double-dealing; a disgraceful thing, accompanied in that by their students among their countrymen - the Afghan secularists - who are like resentful infidels, equal to them in image and behavior. They plot, cooperating with each other and have reached the point of executing their infidel plans. All of this transpires at a time when the Afghan people are afflicted with great afflictions, and many of its people are absent religious and popular awareness, and have lost the freedom of their hearts. Add to that, the ignorance of the majority of the masses, and the ignorance of the educators among the people of knowledge and the activities of the Afghan secularists. The enemy has invaded this group militarily and ideologically a number of times, but they have not been able to achieve a positive success to which they can point in the military invasion. This is because of the existence of an escalating and continuing Afghan resistance and heroic, sacrificial jihadist struggle on this front, although they are able - Allah forbid - to achieve with the ideological invasion what they could hardly dream about.

Practically, their greatest stroke of fortune is the support they receive from the Afghan secularists. By this invasion, they try to weaken Islam and Islamic traditions in the souls of Afghan children. The enemy tries to separate them from their religion and heritage and from their shining Islamic history replete with acts of heroism, zeal and sacrifice for the sake of the Religion and for the sake of their Muslim land. They are thereby able to raise a generation of our countrymen who speak our tongue and claim they belong to this land, which disowns them. All of that is for the sake of aiding tyrannical America and its disciples in destroying the Islamic structure of this land, shatter the unity of the Mujahideen and rip apart the bonds of Islam there, and divide the Afghan people who are united by faith, Islam and an Afghan culture which has sprung from a spirit of Religion. These include the secularists, Communists, nationalists and socialists.

But through the Grace of Allah SWT their plots have been exposed by the hands of the Mujahideen. Allah will return their cunning to their throats - Allah willing - and the pure sons of the Muslims there will awake from their sleep to carry the Word of their Lord and to save their Ummah and their people from the claws of their enemy and the enemy of Islam. These lines are a simple attempt to reveal the truth about those.

A paltry number of the sons of this group have been dazzled like the rest of mankind among the masters of the spider faith by the captivating culture of the West and its bewitching adornments and the progress and development it has achieved for mankind. They turn their faces towards this civilization without sufficient supplies of Islamic and Afghan culture - and this is done just by visits they make to Western countries or through the ignorant and misleading Western media and dissolute satellite networks. They surrender their hearts and their minds to this civilization, they prefer it to all else, what is good to it is good, what is vile to it is vile, regardless of the reality behind it. The enemies of Islam, according to the nature of those liquefied or Westernized (Afghans), if the expression is correct, they would worship the enemies and heed them greatly to be eyes spread among their Afghan brothers. This gives success where the enemies of Islam themselves have failed time and again in striking Islam and its people - those who wish to elevate the word of Allah in Afghanistan - by finally removing the people of Afghanistan from (their) Afghan Muslim life.

Indeed they subsequently become fanatical and bold of tongue, poisoning our Religion, country and people and all who love the True Word and hold dear popular and religious fidelity from traditional enemies. They have sold their religion first then their Afghan Islamic zeal. They have aided the enemies in destroying their religious practices and Afghan fervor. They move between the hands of the enemies of Islam like dogs who wag their tails before their masters, either as the mercenary prime ministers or in the lackey army, or those who make empty roars on behalf of the government, or as mercenary eyes spread around, all of this in exchange for a few dollars. They display towards their religion and people enmity and hate, seeking to satisfy the American and Western foreigners for the sake of achieving the ephemeral and transitory things of this world. Those have played with the rights of our proud people and sold their religion after selling their world. They have stepped on the backs of the people, covetous of climbing up to the West.

Their Resistance to the Islamic Awakening (The Islamic Emirate)

The Islamic Emirate has been subjected to a violent attack by those secularists, to whom the call to apply Islamic Shari'ah and efforts made in this cause, is a call to backwardness, to the age of the Bedouins, and to tents, a pastoral life and the desert...to them civilization and progress do not occur

except through inducing people away from the Quran, abandoning the creed of Islam and detaching people from its history and becoming completely absorbed into the tawdry Western civilization. What is astonishing about the ignorance or feigned ignorance of those secularists who call themselves intelligentsia of the 21st Century, is that they do not turn their eyes to the peoples of the world, who have awoken and progressed – politically, religiously and socially – without having abandoned their past and their culture. On the contrary, every people has preserved their religious and cultural characteristics inherited from their forebears regardless of its truth.

Look to the English, the Russians, the Europeans, the Americans, the Japanese, Indians and Chinese. These peoples have progressed and developed, but did so in the shadow of their false creeds and cultures. They have preserved their false characteristics, components and heritage. The English have remained English, the French have stayed as they are, and so have the Germans and Russians. The Japanese have achieved astonishing progress while preserving their paganism. The Chinese and Indians are the same. All these peoples among the Europeans, Japanese and Indians have developed and progressed and risen, but none among their intelligentsia or anyone else says that they are reactionary, backward or extremist – Christians stay with Christianity, and the Jew abides by the Torah, the Japanese abides by his heathenism, the Indian remains Buddhist or Hindu. But if a preacher calls for adherence to our Religion, our creed and its contents, those whose hearts have been sickened by the Western intelligentsia and who say to themselves that they are men of (Western) culture – although they might wash animals like as horses and dogs or wash plates and dishes in hotels for a living, or perhaps they own taxi cabs – rise up and begin to lament and wail: *“How do you want progress and civilization while you wish you to return to the Middle Ages and bygone days?”*

Those secularists among our race – whether they are a president, minister, ambassador or whatever – are a Satanic growth, a moth worm gnawing at the hearts of our proud Afghan people who wish for nothing for this group other than the Law of Allah alone. The people have proven this fact and will prove it again in the future, Allah willing. Those secularists have attempted to impose upon the people of this group the culture of the West in education, religion, development, politics and traditions, among other things, crying: *“There is no existence, no advancement and no progress except by banishing the Islamic culture which is the heritage of the Afghan Muslims.”* May Allah shame them for what they say.

The Afghan Secularists are the Greatest Obstacle in the Way of Implementing Islamic Shari’ah

The devotion of those mercenaries to their enemies is not limited to spreading Western ideas. Rather, they have come to wage war against Islam, and all those who are zealous for Islam in our pure land, and all those among the people who attempt to implement Islamic Shari’ah in the land in which they were born and raised. They cast at them names like extremist, radical and reactionary. All of this gladdens the enemies of Islam. What is astonishing about this matter is that those (secularists) only use those names to describe those trying to implement Shari’ah in their birthplace. As for the Jew of Christian who come from the true hateful, extremist fringe of the West and the generations and students following them, who make every effort day and night to spread the Christian message among some naïve Afghans in the name of civilization and civility while they are protected by the bullets falling from airplanes and helicopters, artillery rockets and heavy tanks and miss no opportunity on behalf of their false religion outside its original land, despite all their abominations and offenses, we find the secularists not labeling them with extremism or fanatical. They describe them as developed, civilized and modern. Woe, O woe unto you for you discrimination.

We know full well that their description, at the direction of their master (America), of the Islamists and Mujahideen as extremist, radical, fanatic or terrorist is not intended to return the Mujahid to moderation. Rather, the intent is to quell Islamic feeling and Jihadist fervor and to destroy any type of rebellion against Western ideas. Those mercenaries are nothing but lackeys serving the enemies of Islam and the enemies of their Muslim people, providing services that perhaps even the West itself did not dream of. The humanitarian standard among them is material and tangible things. Progress among them is wearing make-up, drinking wine, attending shameless dance parties, keeping vigil in bars and hotels until the break of dawn, mingling of the sexes and sexual activity. All of these things are at the heart of progress!!!!?

Towards the implementation of Shari’ah they evince a harshness, barbarity and hostility that conflicts with civilization and progress and is suitable only for the Middle Ages.

Exciting Nationalist and Regional Chauvinism (Pushtun, Tajik and Uzbek)

The implementation of Shari’ah is not the only topic on which those secularists focus in friendship to the Americans. Indeed there is also the issue of nationalist and ethnic chauvinism under the name Pushtun, Tajik and Uzbek, or people of the North, of the South or people of the East or West. The call to chauvinism is a most dangerous matter, and might lead to the strength of the Muslim people being shaken, their unity shattered and their division into warring mini-states or regions, hunted by their enemies at their leisure. They also aim at making the loyalty of the Muslim to their nation come before their loyalty to their creed, which would make the matter of creed secondary or marginal.

Here we must all know as Muslims in general and as Afghans especially, that the demand for strength, victory or primacy as Pustuns, Tajiks, Uzbeks or whatever will not bring any benefits whatsoever and will never achieve victory. It will not elevate our situation and we will remain the most despised of people until we return to our Islam first, then to our beloved country and its true needs second.

The Beginning Of The Mujahideen’s Hot Spring In 2011 With Glad Tidings Of The Country’s Liberation And Final Victory

With the end of the bitter, cold season and the beginning of Spring – the season of radiant hope – the Mujahideen have conducted swift, military strikes against the unjust foreign forces and their lackeys, as a prelude to the fierce battles that will cover the entire country. This began in the east in Nooristan province, leading to the liberation of the Want directorate, and spread to the province of Kapisa and the capital Kabul, where the Mujahideen were able to penetrate the defensive lines of the foreign troops and killed more than 10 French- and American soldiers in separate operations in Tagab district and against the American military base in Kabul. The operations ended in Helmand, where the Mujahideen intensified their attacks against the occupiers and forced them to withdraw their troops from the most strategically important districts of the province.

The swift military movements of the Mujahideen from the east to west of the country, and from north to south in just a matter of a few days and the corresponding retreat of the foreign forces, and their withdrawal from fortified bases in Kunar province in the east and multiple areas in the west, have clearly demonstrated the military competence of the foreign forces in Afghanistan. The enemy was not even able to resist Mujahideen attacks against fortified bases. Nor were they able to protect their lackeys who were guarding their bases day and night. Rather, the Mujahideen were able to kill a number of important security personnel, such as Abdul Rahman Sayyidkhali, chief of police in the northern Kunduz province, and the head of the intelligence apparatus in the same province, and a number of other men in the lackey Karzai's administration from around the country.

The intensification of Mujahideen attacks on the bases of foreign forces on the one hand, and the appearance of thousands of angry demonstrators against the military occupation on the other, completely belied the claims made by the generals of the enemy through their media about their military progress and the destruction of Mujahideen combat capabilities in certain Afghan provinces.

With the approach of the deadline for the withdrawal of foreign troops in the coming July of the current year, the morale of the foreign troops will collapse, Allah Almighty willing, and their fighting spirit and strength to resist will weaken in the face of the crushing blows of the Mujahideen. This is what made General Petraeus, supreme commander of the foreign forces in Afghanistan, lose hope in achieving victory over the Mujahideen and begin to think instead about a safe exit from the Afghan dilemma and tender his resignation from his post as commander of foreign troops in Afghanistan. US Secretary of Defense Robert Gate had adopted the same opinion, and wants to resign from his post as Defense Secretary because of the successive defeats inflicted upon his soldiers despite having reinforced them by sending thousands of additional troops and advanced military equipment.

The collapse of foreign troops in confronting the Mujahideen on the one hand and the energizing of Mujahideen operations because of suitable conditions in some Afghan provinces on the other, will lead, Allah permitting, to the defeat of all the schemes of the Americans who wish to carry out in handing over the reins of power to the lackey Karzai administration and conducting criminal acts against innocent civilians, such as destroying their homes and uprooting their fruit trees. This will also have a negative impact on the projects of the so-called Afghan Peace Council, intended to cause dissension among the different segments of the Afghan people, and calling upon them to throw down their weapons in the face of aggression and infidelity and to abandon Jihad in confronting the occupiers.

The current course of events on the ground of reality, and the desired outcomes they will produce, brings good tidings that victory will be the ally of the Mujahideen and serve as a warning sign for the American occupiers and their NATO allies and Afghan lackeys. What is incumbent upon them in the face of these clear facts and basic truths is to end the occupation, and withdraw all their barbaric forces unconditionally. This is the focus of the Islamic Emirate, and this is what it views as the most appropriate solution for the current Afghanistan crisis.

As for the continuation of the occupation of the country and the use of force against the Muslim Afghan people, it will only bring them more frustration, losses, despair, regret, death, affliction, hunger and bankruptcy. Sooner or later, this will lead to the defeat of the occupiers; the breaking of their pride, and the victory of the People of Truth over them, Allah permitting. Nothing is difficult for Allah.
